1. Chemical

- (a) The "Gas and Chemical Products" factory at Ruse (5/E1572) in Slovenia is constructing silos for storing artificial manure. These silos are designed to have a capacity of "500 railroad car loads".

The same factory is producing ten car loads of carbides daily.

- (b) The chemical products factory at Hrastnik (12/6932) in Slovenia is being adapted for the production of aniline dyes for the textile industry. Production is designed to cover all the requirements of Slovenia. These dyes were formerly imported from Germany.

2. Sugar

A new factory for the extraction of sugar from beet is under construction at Zupanja 949/G6819 in Croatia. Production is expected to begin by October 1947. Designed production capacity not indicated by source.

3. Cement

A large cement depot is under construction at Osijek (34/G6773) on behalf of the "Croatian Cement Board".

This depot is designed:

- (a) to provide offices for the central direction of the whole Croatian cement industry.
- (b) to provide a central cement storage depot from which all Croatian cement supplies will be distributed.

  The Yugoslav Government recently issued an order to the effect that no cement may be distributed or sold until it has been graded by the Cement Board. The process of grading will take place at the Central Cement Storage Depot.)

4. Minerals

Approved For Release 2006/01/31 : CIA-RDP82-00457R000500510009-5  
As a result of war damage a number of mineheads of the manganese mines at
